I am passionate about web development and technology. I consider myself a creative and energetic individual who loves to research and learn something new every day.

This is why I was completely captivated by the world of programming from the moment I wrote my first lines of code. I thrive in team environments, where I enjoy exchanging ideas and knowledge with my colleagues.

Experience

Frontend Developer • INECO

10/2022 - Now

- Develop and maintain dynamic, responsive user interfaces using React.
- Build reusable components and ensure efficient state management with hooks (useState, useEffect, etc.).
- Collaborate with designers and back-end developers to create seamless integrations.
- Optimize performance for faster load times and better user experience.
- Implement responsive designs to ensure cross-device compatibility.
- Debug and troubleshoot issues in real-time to ensure smooth functionality.
- Participate in code reviews and maintain clean, well-documented code.
- Stay updated on the latest React features, libraries, and best practices.

Frontend Developer • Softek

10/2021 – 10/2022

- Design and implement responsive, user-friendly web interfaces ensuring cross-browser and cross-device compatibility.
- Collaborate with designers and back-end teams to integrate APIs and create seamless, intuitive user experiences.
- Optimize performance and usability, focusing on efficient loading, accessibility, and clean, maintainable code.

Frontend Developer • Freelance

06/2021 – 10/2021

- Translate designs into clean, functional code.

- Develop the visual elements of the website for a seamless user interface.
- Design and structure the website for optimal user experience.
